MATHCOUNTS is a Math skills building and competition for 6<sup>th</sup>, 7<sup>th</sup> & 8<sup>th</sup> grade students, sponsored by the National Society of Professional Engineers. Competitions are held at the local Chapter level, followed by a State competition. The top individuals from the State competition then compete at the National Competition, which is being held in Orlando, FL, this year. The top winners of the National Competition can win college scholarships.

Teams of 4 students and up to 6 individuals from the schools spend about 4 hours taking various written and oral tests.

It is estimated that the competition and awards ceremony will end by 1:00 PM. There will be a short break after the Team competition-before the Countdown round competition. We will provide some refreshments.
